Independent Auditor's Report

Board of Trustees Village of Indian Point Indian Point, Missouri

We have audited the accompanying modified cash basis financial statements of the governmental activities and the business-type activities of the Village of Indian Point as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash financial position of the governmental activities and the business-type activities of the Village of Indian Point, as of December 31, 2019, and the respective changes in modified cash basis financial position and, where applicable, cash flows thereof for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole that collectively comprise the Village's basic financial statements. The budgetary comparison information on page 24 and 25 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Information

We have previously audited the Village of Indian Point, Missouri's 2018 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities and the business-type activities in our report dated July 29, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2018, is consistent in all material respects, with the audited financial statements from which it has been derived.

Reconciliation of the Governmental Statement of Revenues, Expenditures, and Changes in Fund Balance to the Statement of Activities - Modified Cash Basis
Year Ended December 31, 2019 with Comparative Data

Net changes in fund balances - total governmental funds	2019 \$ 68,529	Data 2018 \$ 126,952
Governmental funds financial statements report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	43,907	11,619
In the statement of activities, only the gain on the sale is reported, whereas in the governmental funds, the proceeds from the sale increase the financial resources.	(9,723)	-
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayments of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	149,000	(19,000)
Changes in net position of governmental activities	\$ 251,713	\$ 119,571

1. Summary of Significant Accounting Policies

A. The Financial Reporting Entity

The Village of Indian Point, Missouri operates under a form of government that is comprised of an elected Board of Trustees. Indian Point provides a range of municipal services, including general government administration, public safety, planning and community development and street maintenance.

In evaluating how to define the reporting entity, for financial statement purposes, management has considered all potential component units. The decision to include a potential component unit was made by applying the criteria set forth by the Financial Accounting Standards Board (FASB) which defines the reporting entity as the primary government and those component units for which the primary government is financially accountable. Financial accountability is defined as appointment of a voting majority of the component units board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government. Application of this criterion and determination of type of presentation involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. Based upon the application of these criteria, there were no potential component units required to be included in this report.

Private-sector standards of accounting and financial reporting issued prior to November 30, 1989, generally are followed in the proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation.

B. Government-Wide and Fund Financial Statements

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes on the Village's financial position and operations. Such information is presented in a summarized comparative format and should be read in conjunction with the government's financial statements for the year ended December 31, 2018, from which the information was summarized.

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the Village as a whole, excluding fiduciary activities, within the limitations of the modified cash basis of accounting. For the most part, the effect of interfund activity has been removed from these statements. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed by taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed, in whole or part, by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly

identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position or fund balance, revenues, and expenditures or expenses. The Village's funds are organized into two major categories: governmental and proprietary. The Village presently has no fiduciary funds. An emphasis is placed on major funds within the governmental and proprietary categories. Although this reporting model sets forth minimum criteria for determination of major funds (a percentage of assets, liabilities, revenues, or expenditures/expenses of fund category and of the governmental and enterprise funds combined), it also gives governments the option of displaying other funds as major funds.

The funds of the financial reporting entity are described subsequently:

Governmental Fund:

General Fund - The General Fund is the general operating fund of the Village and is always classified as major. It is used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Fund:

<u>Enterprise Funds</u> - Enterprise Funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges, and the measurement of financial activity focuses on net income measurement similar to the private sector. The one enterprise fund is the sewer fund.

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe what transactions or events are recorded within the various financial statements. Basis of accounting refers to when and how transactions or events are recorded, regardless of the measurement focus applied.

Measurement Focus:

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as subsequently defined in item (b).

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus, as applied to the modified cash basis of accounting, is used as appropriate:

- a. All governmental funds utilize a current financial resources measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an economic resources measurement focus within the limitations of the modified cash basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), net financial position, and cash flows. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or noncurrent or financial or nonfinancial) associated with their activities are generally reported within the limitations of the modified cash basis of accounting.

Basis of Accounting

The financial statements are presented in accordance with a modified cash basis of accounting, which is a basis of accounting other than GAAP as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report in the statements of net position or balance sheets cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include investments, accrued expenses, capital assets and related depreciation, and long-term liabilities arising from cash transactions or events.

This modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected and other accrued revenue and receivables) and certain liabilities and their related expenses or expenditures (such as accounts payable and expenses for goods or services received but not yet paid and other accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not arise from a cash transaction or event are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the Village utilized accounting principles generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting, and the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financial statements would be presented in accordance with the accrual basis of accounting.

C. Revenues, Expenditures, and Expenses

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (Public Safety, Transportation, etc.) or activity are offset by program revenues. Direct expenses are those that are clearly identifiable with specific function or activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity, 2) grants and contributions that are restricted to meeting the operational requirements of a particular function or activity and 3) grants and contributions that are restricted to meeting the capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues even if restricted for a specific purpose.

The Village distinguishes operating revenues and expenses from non-operating items in the proprietary funds. Operating receipts and disbursements generally result from providing services in connection with the Village's principal ongoing operations. The principal operating receipts are charges to customers for water services. Operating disbursements include the costs of sales and services and administrative expenses. All receipts and disbursements not meeting this definition are reported as non-operating receipts and disbursements.

D. Cash and Cash Equivalents

Cash consists of amounts in demand deposits and certificates of deposit. The Village considers all highly liquid investments maturing within three months to be cash equivalents. Cash balances are invested to the extent available. Investments include money market accounts and certificates of deposit. Investments are stated at cost which approximates fair value.

E. Property Taxes

The Village does not levy property taxes.

F. Capital Assets

Under GASB Statement No. 34, all capital assets, whether owned by governmental activities or business-type activities, are recorded and depreciated in the government-wide financial statements. Under GASB No. 34, small Cities have the option to capitalize infrastructure purchased in previous years. The Village of Indian Point has chosen not to capitalize existing infrastructure but will capitalize any future infrastructure that it acquires. No long-term capital assets or depreciation are shown in the governmental fund's financial statements.

Capital assets, excluding public domain infrastructure (e.g. roads, bridges, sidewalks and other assets that are immovable and of value only to the Village) are defined as assets with an individual cost of more than \$500 and an estimated useful life greater than one year. Infrastructure assets are defined as assets that have an individual cost of \$10,000 or more.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

Notes to Financial Statements December 31, 2019

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Equipment 5-15 years
Buildings 50 years
Sewer mains 50 years
Water towers and lines 20-50 years

Capital assets transferred between funds are transferred at their net book value (cost less accumulated depreciation), as of the date of the transfer.

G. Use of Estimates

The preparation of financial statements in accordance with the modified cash basis of accounting used by the Village requires management to make estimates and assumptions that affect reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

H. Short-Term Interfund Receivables/Payables

During the course of operations, transactions occur which result in amounts owed to a particular fund by another fund, other than for goods provided or services rendered. These receivables and payables are due within a year and are classified as "due to/from other funds" on the balance sheet.

I. Compensated Absences

The Village's policy on vacation and sick leave permits limited accruals of each type that can be used in a future year. No provision has been made to record this liability in the year incurred, but rather, when paid.

J. Pension

Financial reporting information included in the notes to the financial statements pertaining to the Library's participation in the Missouri Local Government Employees' Retirement System (LAGERS) is prepared in accordance with Governmental Accounting Standards Board ("GASB") Statement No. 68, Accounting and Financial Reporting for Pensions, as amended by GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date as applicable to the Village's modified cash basis of accounting. Therefore, employer contributions are recognized when paid and the Village's net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions are not recorded in the financial statements.

K. Net Position/Fund Balance Classifications

Government-Wide Statements

On government-wide statements, net position is classified and displayed in three components: 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Net investment in capital assets is capital assets net of accumulated depreciation and reduced by outstanding balances of

any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Restricted net position is one with constraints placed on their use by either: 1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation. All net position not otherwise classified as restricted, is shown as unrestricted. Generally, the Village would first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Fund Financial Statements

Governmental Funds:

The difference among assets, deferred outflows, liabilities, and deferred inflows of governmental funds is reported as fund balance and classified as nonspendable, restricted, committed, assigned, and unassigned based on their respective level of constraint. Nonspendable amounts cannot be spent because they either are not in spendable form or are legally or contractually required to be maintained intact. Restricted amounts are constrained regarding use from restrictions externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or by restrictions imposed by law through constitutional provisions or enable legislation. Committed amounts are constrained regarding use for specific purposes pursuant to requirements imposed by formal action by the City's Board of Trustees. Assigned amounts are constrained by the Village's intent to be used for specific purposes but that are neither restricted nor committed. Unassigned amounts are spendable amounts that have not been restricted, committed, or assigned to specific purposes. The Village would typically use restricted funds first, followed by committed, followed by assigned, and then unassigned, as needed.

Proprietary Funds:

The difference among assets, deferred outflows of resources, liabilities, and deferred inflows of resources of proprietary funds is reported as net position and classified in the same manner as the government-wide financial statements, as previously described.

2. Restricted Assets

Governmental Activities

The 2007 Certificates of Participation established deposit requirements for project construction and debt service. These funds are held in trust accounts. At December 31, 2019 the required deposits had been met and consist of:

	Re	estricted		
	Ca	ash and	R	estricted
	Inv	estments	Ne	t Position
Roads Fund	\$	104,362	\$	104,362
Capital Improvements		67,771		67,771
	\$	172,133	\$	172,133

Business-Type Activities (Sewer Fund)

The 2005 Revenue Bonds established deposit requirements for project construction, debt service payments, rebates and debt service reserve. These funds are held in trust accounts. At December 31, 2019, the required deposits had been met and consist of:

	R	estricted	Re	stricted
		Cash	Net	Position
Debt service funds	\$	22,744	\$	-
Special reserve funds		11,950		-
	\$	34,694		_

3. Cash and Equivalents

The Village has formal investment policies for Village monies. Investments consist of non-negotiable certificates of deposit stated at cost, which approximates market.

Deposits:

The Village's deposits, including restricted assets, are stated at cost and are composed of the following:

		Book	
	(Carrying	Bank
	Amounts		Balance
Petty cash	\$	400	
Checking accounts		330,794	357,366
Certficates of Deposit		178,461	178,461
Total		509,655	535,827
Held in Trust:			
U.S. Government money market funds		34,694	34,694
Total	\$	544,349	\$ 570,521
:			

Interest Rate Risk – In accordance with its investment policy, the Village manages its exposure to declines in fair values by holding investments to maturity.

Custodial Credit Risk – This is the risk that in the event of a bank failure, the Village's deposits may not be returned to it.

Of the total bank balance at December 31, 2019, the entire balance was covered by federal depository insurance or pledged collateral.

To protect the safety of the Village deposits, Section 110.020, RSMo 1986, requires depositories to pledge collateral securities to secure Village deposits not insured by the Federal Deposit Insurance Corporation. As the previous paragraph indicates, the Village and its depository banks were in compliance with the Missouri law.

Section 95.355, RSMo 1986, requires the Village to enter into agreements with the banks selected as depositories. The Village does not have formal depository contracts with the banks that hold Village monies.

4. Risk Management

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; business interruptions; errors and omissions; employee injuries and illnesses; employee health benefits; and natural disaster. The Village maintains commercial insurance coverage for each of those risks of loss. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

5. Capital Assets

	\$164,000	\$ 36,295	\$200,295		\$	427,658	\$ 102,730	\$ 530,388		

Governmental-type Activities:

2007 Village City Hall Project Certificates of Participation, dated April 1, 2007, due in annual installments through April 1, 2027, bearing interest rates of 4.6% to 5.0%, interest payable semi-annually.

2017 Paving Loan, dated August 10, 2017, due on November 30, 2020, bearing an interest rate of 3.30%, interest payable at loan end. This loan was paid off during 2019.

The 2018 Car Loan, dated September 25, 2018, due on November 30, 2020, bearing an interest rate of 3.30%, interest payable at loan end. This loan was paid off during 2019.

Business-type Activities:

2005 State Revolving Fund waste water system revenue bonds, dated November 1, 2005, due in annual installments through July 1, 2026, bearing interest rates of 3.25% to 5.25%, interest payable semi-annually.

2009 Lease Purchase, dated March 15, 2009, due in semi-annual installments through April 1, 2029, bearing interest rate of 6.75%, interest payable semi-annually.

7. Operating Leases

The Village entered into an operating lease for a new copy machine beginning in July 2017 and ending August 2022. The agreement is for a 60-month term, \$105.32 due monthly. For December 31, 2019, \$1,264 was expensed.

Future minimum rental commitments at December 31, 2019 are as follows:

For the year ending December 31,	Equipment			
2020	\$	1,264		
2021		1,264		
2022		855		
	\$	3,383		

8. Pension Plan

A. Plan Description

The Village of Indian Point's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The Village participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

B. Benefits Provided

LAGERS provides retirement, death, and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years

of credited service and after attaining age 55 (50 for police) and receive a reduced allowance.

	2/28/2019
	Valuation
Benefit Multiplier:	1.50% for life
Final Average Salary:	5 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

As of June 30, 2019, the following employees were covered by the benefit terms:

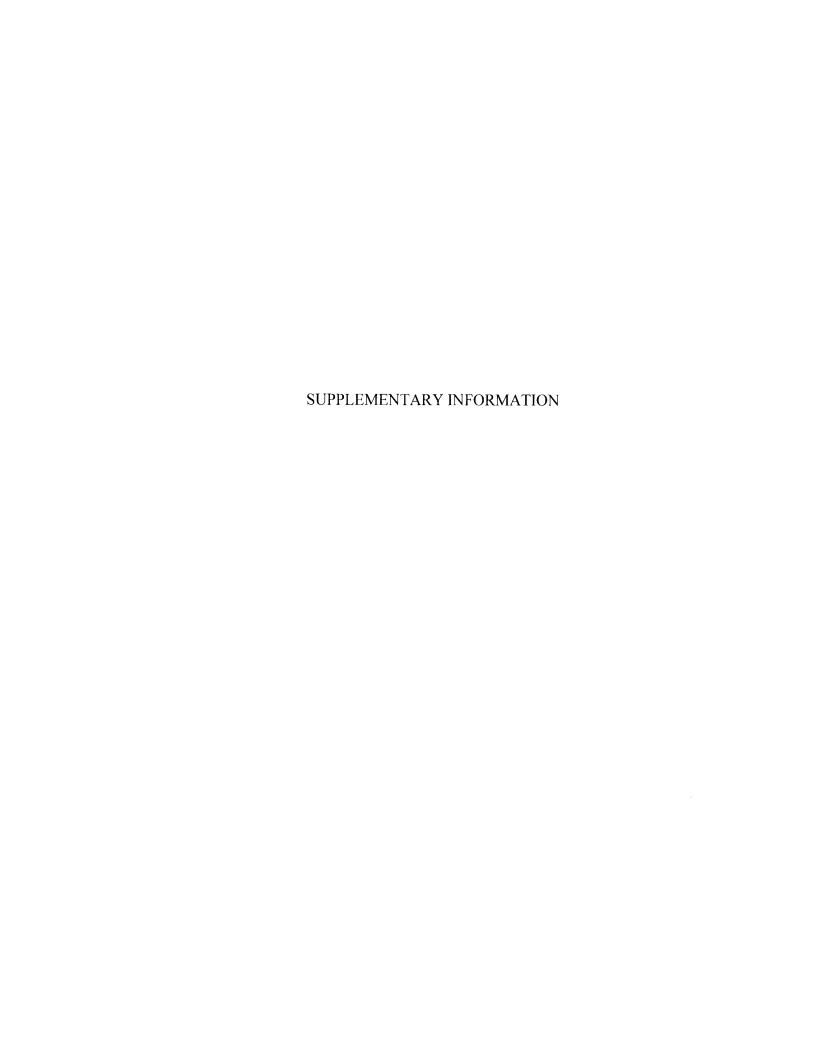

0
0
5
5

C. Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the Village contribute 4% to the pension plan. The Employer contribution rates are 6.80% for General and 10.00% for Police of annual covered. For the year ended December 31, 2019 the employer recognized pension expense of \$14,031.

9. Prior Period Adjustment

We have restated our Financial Statements for the year ended December 31, 2018. The Financial Statements were adjusted to show the removal of maintenance costs capitalized on the Government-wide Statement of Net Position-Modified Cash Basis and Statement of Activities-Modified Cash Basis in the Governmental Activities column. The Total Net Position decreased by \$137,870. The Reconciliation of the Governmental Funds Fund Financial Statements were adjusted to reflect the change in the Government-wide Financial Statements.

VILLAGE OF INDIAN POINT, MISSOURI Notes to the Supplementary Information - Budget Comparisons December 31, 2019

1. Budgetary Basis

Annual budgets are adopted on a modified cash basis of accounting where revenues are reported as collected and expenditures when paid. All annual appropriations lapse at year-end.

2. Budgetary Information

Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level.

All budget revisions at this level are subject to final review by the Board of Trustees. Revisions to the budget were not made during the year.

3. Excess of Expenditures over Appropriations

None.
